2023 STRATEGIC LEADERSHIP

CERTIFICATE PROGRAM

With interactive discussions and hands-on training, strive to be a dynamic leader by:

- Communicating your vision and aligning it with the organizational strategy
- Seeking self-awareness and understanding the impact of emotional intelligence
- Building relationships and successfully interacting with multiple generations
- Developing a personal branding statement
- Managing change in an ever-changing climate
- Exploring the eight-step decision making process

As constant changes in technology and legislative issues present themselves, it's **crucial for professionals to adapt to the shifting demands of successful leadership.** The world in which we live and work is not static; neither should today's leaders be.

The Strategic Leadership Certificate Program, offered by PayrollOrg, **understands the dynamic world that leaders face daily** and seeks to promote personal and professional growth. This unique three-day program highlights the **myriad qualities of decisive leadership**, including effective

communication and decision making.

The Strategic Leadership Certificate Program arms you with the knowledge, resources, and skills necessary to **face challenges, inspire others, and deliver remarkable results.** Upon completion of the course, you'll have the required skills to lead teams through today's ever-changing environment.

Attendees from previous programs have come from companies such as Cox Enterprises, DaVita, Cisco Systems, and Kaiser Permanent.

LEARNING MODULES*

MODULE 1: **INTRODUCING CORE LEADERSHIP COMPETENCIES**

Leaders — and aspiring leaders — are all concerned with developing the competencies needed to become a more effective leader. Identify the core competencies that define a great leader and how to adapt your leadership style to improve effectiveness.

MODULE 2: **THE VALUE OF THE VISION**

Leadership qualities include thinking about and developing a vision for the future. Leaders share a dream and direction that others want to accept and follow. Beyond written organizational mission and vision statements, discover how the leadership vision floods the workplace through the actions, beliefs, values, and goals of the organization.

MODULE 3: **BUILDING AND MAINTAINING RELATIONSHIPS**

Good working relationships are imperative to our professional circles. Effective interpersonal relationships with customers, suppliers, employees, and key stakeholders contribute to the foundation of success and satisfaction with your job and your career. Identify how behavior and leadership styles help develop strong teams, and how to strengthen and maintain relationship building.

MODULE 4: **COMMUNICATING EFFECTIVELY AND CONFIDENTLY**

Being an effective communicator is one of the essential skills you must develop to succeed and grow in your career. As you rise in responsibility, your ability to deliver clear messages effectively and confidently is vital. Discover how your communication skills will impact the way you are perceived, and how they will play a large part in your credibility and promotability to senior roles.

MODULE 5: **LEADING THE TEAM THROUGH CHANGE**

Leaders have a critical role in making change happen. Leaders of teams, projects, departments, and other functions are in a unique and powerful position to translate the vision from the C-Suite to the ground troops and help direct reports navigate the emotions of change and transition. Your goal is to generate alignment and commitment for the change effort to be successful.

MODULE 6: **EFFECTIVE DECISION-MAKING**

It is inevitable that leaders, no matter what type, will be faced with making many different decisions. Start to improve your decision-making skills by focusing more on the process that leads to the decision, rather than on the decision itself.

MODULE 7:

DELIVERING RESULTS

Knowing precisely what you want to achieve helps gain the desired results of any business project. Establish the steps required to define your project objectives, clarify the scope of what needs to be accomplished, and develop the plan to execute it. Avoiding project planning with the attempt to save time or money will only produce additional headaches.

MODULE 9:

INTERACTING WITH MULTIPLE GENERATIONS

Generational diversity has excellent potential — growing and learning from each other's ideas and experiences — but the potential for conflict and misunderstanding is ever-present. Understanding the attributes of each generation is essential for leaders to harness different working styles, boost collaboration and creativity, and provide insights to engage the entire workforce.

MODULE 8:

UNDERSTANDING THE EMOTIONAL IMPACT

Everyone experiences emotions, but few can accurately identify them as they occur. Recognize your own triggers and emotions as well as those of others. Discern between different feelings and label them appropriately by using your emotional intelligence to guide your thinking and behavior. Discover how managing or adjusting your emotions can help you achieve your goals.

MODULE 10:

LEADING AUTHENTICALLY

Authentic leaders are self-aware, knowing their strengths, limitations, and emotions. They recognize their biases, embrace diverse thinking styles, promote inclusive leadership, and build cross-cultural awareness among teams. Made from the heart, decisions create honest relationships, trust, and support. Authenticity improves individual and team performance and builds strong character.
