Wage Payments Module

## What Our Pay Card Clients Are Saying

Pay cards are an important component of an employee-friendly set of options to receive earnings. ADP has been a leader in the pay card space for years. And, with our recent innovations, we are offering even more with the power of Global Cash Card and Wisely Pay by ADP. **Here's what some of our current clients of pay cards have to say:**

### Implementation Is Flawless

**"Even though I had previous pay card experience and was well-versed using it, I had a dedicated ADP Implementation Specialist and she was just amazing."**

- Tim Rogers, Director of Human Resources  
Matchbox Food Group (Integrated with Gratuity Solutions)

### Expertise

**"They really took the time upfront to understand our business, to understand the laws and regulations around those states and what we needed to do to make this successful. This was instrumental in our 99% success rate with the card."**

- Tim Kendrot, Controller  
Logan's Roadhouse

### Compliance

**"Choosing ADP meant we continued with a proven track record for compliance."**

- Janet Maples, Payroll Supervisor  
Online Computer Library Center (Integrated with Workday)

### Cost Savings

**"The card allows a direct deposit for employees that do not have a banking relationship."**

- Chris Bellian, Payroll/Benefits Manager  
Industrial Manufacturing Company

### Employees Love It

**"Our employees have not had any issues using the card. Honestly, I can't see why anybody would! They don't have to walk out with cash and worry about carrying it. If they don't have a traditional banking account, they can pay bills online and access cash."**

- Tim Rogers, Director of Human Resources  
Matchbox Food Group (Integrated with Gratuity Solutions)

### Risk Reduction

**"Our Payroll department has been able to move to a 100% electronic payment requirement in the four states we operate in, eliminating approximately \$6,000/semi-monthly for postage, packaging and stop payment fees associated with live check processing. We've also been able to reduce the fraud risk in our 64 buildings by eliminating the need to keep a payroll check book in each for emergencies."**

- Melissa Carter, Payroll Manager  
Plum Healthcare Group
